

IGRIRYAN FAMILY

Project Description & Background

Our Ayo! team was so excited to support the Igriryan family, that we also joined our efforts within the team and brought gifts to the children, things they were dreaming of. Varazdat received a new pair of glasses, and won't be walking with the half-broken and scotched glasses anymore. HE also got a new soccer ball, something he lacked when playing outdoors with his friends.

Zare, who was dreaming of becoming a nail artist got gifts in form of nail care materials and of course several colorful nail polishes too. She was really happy that now she is able to take care of her mother's and her siblings' nails.

The dream of 7-year-old Ani also came true, as today she already has her Barbie doll. And finally, Varazdat's oldest sister, Susanna, got new paints to continue her passion of painting. The family of Igriryans were very happy to receive all kind of gifts and support from Ayo! and we are happy that you made it possible for this family to have a bit better life.
