ayo!

Project Goal

To expand and modernize the Soldier's Home prosthetics center so it can deliver faster, more accurate, and more comfortable prosthetic care to veterans, children, and civilians with amputations.

Project Background

This prosthetics service capacity expansion program will upgrade and expand the prosthetics center at Zinvori Tun (Soldier's Home) — a trusted care institution dedicated to serving disabled veterans, children, and civilians living with limb loss and mobility challenges. Zinvori Tun has long provided rehabilitation, prosthetic support, and life-enhancing services to Armenian heroes and to community members striving to regain independence and dignity.

Through this project, Ayo! donors have the chance to furnish the center with modern, internationally compliant technologies and equipment. These improvements will increase measurement accuracy, reduce production errors, accelerate service delivery, and significantly enhance the comfort, fit, and functionality of each prosthesis.

Budget

Item	Quantity	Unit Cost (USD)	Total (USD)
Sit-cast Casting Device	1	\$8,395	\$8,395
Rubber Suspension Sleeve	1	\$200	\$200
