

ACT Scholars Fund

Budget Report

ayo!

Project Goal

To augment the ACT Scholars Fund, a tuition fund for bright students with financial need who want to study at ACT College.

Project Background

ACT College, founded in 2025 by GITC with the support of FAR, is Armenia's first state-licensed vocational college for technology and the creative fields. With programs in Computer Science, Engineering & Manufacturing, and Digital Art, ACT equips young people with the skills to thrive in today's job market.

But for many talented students, the cost of tuition stands in the way of opportunity.

FAR has established the ACT Scholars fund as a means of helping selected ACT students cover up to 90% of their tuition through donor support. One year of tuition is roughly \$2500 (depending on the exchange rate).

You can help ensure that financial need never blocks the path to education and that Armenia continues to cultivate her next generation of tech leaders.

Budget

Item	Quantity	Annual Tuition (USD)	Total (USD)
1 year of tuition	25	\$2,631	\$65,800
Total	\$65,800		
<i>Exchange rate: 1 USD = 380 AMD</i>			

Note: The money from the ACT Scholars Fund will be distributed annually to students based on a combination of need and merit. Scholar students will receive up to 90% tuition coverage.
